ACCELERATING TECHNOLOGY & SOFTWARE APPLICATIONS TOWARDS THE FUTURE OF SAFE, CONNECTED & INTELLIGENT MINING OPERATIONS

MiningTech North America Conference & Exhibition is firmly established as international mining technology, innovation, AI, digital transformation & clean energy exhibition, bringing together the entire mineral resources value chain to Vancouver, BC.

As the minerals demand essential to the global energy transition is surging and the sustainable practices are in the spotlight, the mining industry stands at a transformative juncture of structural changes, where technology is the key to ensure the industry delivers on this strategic opportunity of the energy transition.

Technology is fuelling the mining revolution in exploration, excavation, material handling, concentration & refining, energy storage & use, logistics and recycling.

Unlocking the full potential of a mine and improving mining & minerals operations, requires the integration of technologies across various stages of mining – from exploration to recycling, in order to maximize operational efficiency, reduce costs, improve safety across the entire mine lifecycle, boost performance & deliver value to all stakeholders.

Position your company at the forefront of the mining & mineral resources industry, alongside 35+ exhibitors and meet with 700+ key decision makers, qualified buyers and industry professionals who are actively seeking projects, products, technologies and solutions that will accelerate the era of smart & safe mining in North America, and beyond.

MiningTech North America is held in Vancouver, BC to connect global companies, governments, technology, service & solution providers via personalised networking platforms, 1-2-1 meetings, social events & knowledge sharing for new partnerships & business opportunities.
